

Running iOS apps

The first time you ever run an app from Front-Line Tech Ltd, you may see this warning...

“Untrusted Enterprise Developer”

To add Front-Line Tech Ltd to your trusted developers, follow these simple steps...

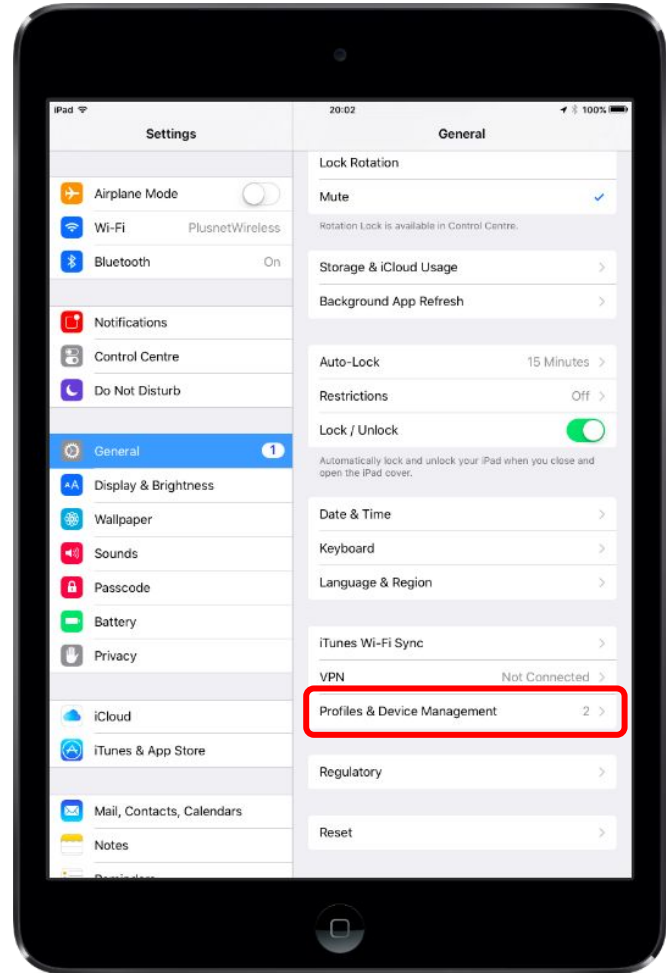

Look in Settings

The **Settings** app contains a section called **General**.

In there, you should see a section called **Profiles & Device Management** near the bottom.

Tap **Profiles & Device Management**...

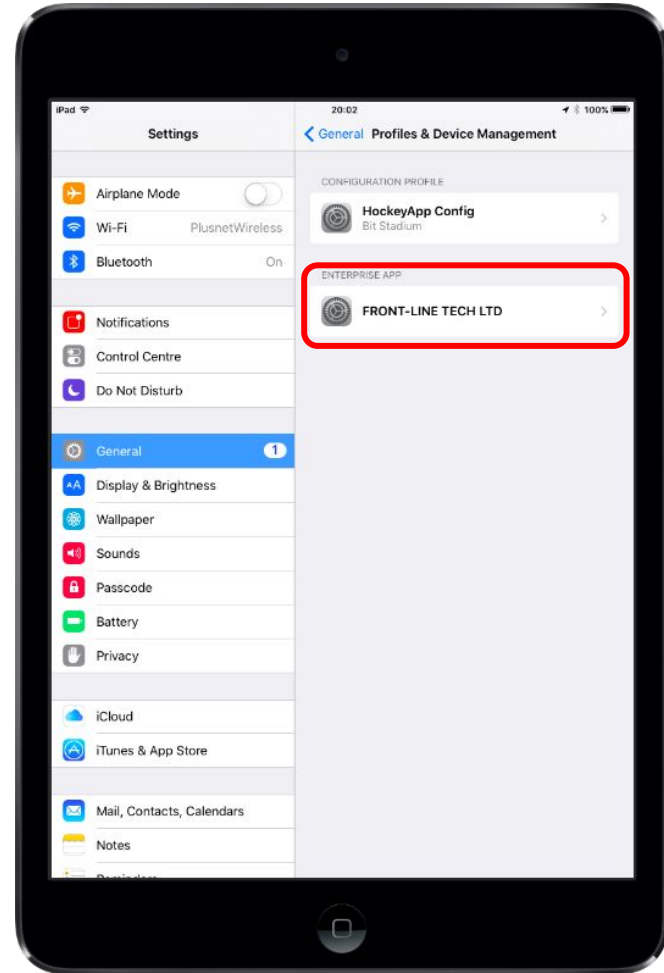

Find the profile

Inside Profiles & Device Management you will see a list of profiles currently on the device...

You should see one called:
FRONT-LINE TECH LTD

Tap it...

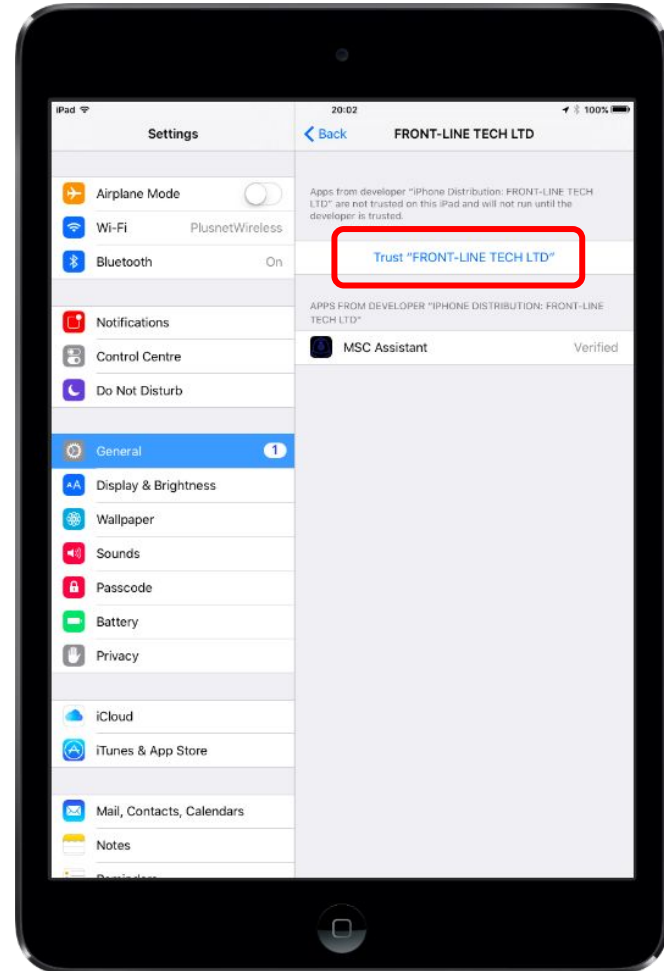

Trust the profile

Inside FRONT-LINE TECH LTD you will see an option called:

Trust "FRONT-LINE TECH LTD"

Tap it...

Confirm

You will see this message, asking you to confirm your decision:

**Trust “iPhone Distribution:
FRONT-LINE TECH LTD”
apps on this iPad**

Confirm by tapping the **Trust** button.
